STRUCTURAL BENEFITS

Learn the competitive
advantages of Vivere Hotel

WE CHAMPION PUBLIC HEALTH AND YOUR SAFETY

Vivere Hotel has been accredited as a Multiple-Use Hotel by the Department of Tourism and Bureau of Quarantine for meeting the required health and safety protocols set by these agencies.

Our commitment to the strict implementation of our health and safety protocols through our #VivereCleanCare campaign and our house rules are complemented by the cooperation and compliance of all our dear guests. Dedicated access points, elevators, facilities and floors have also been assigned to separate quarantine and non-quarantine bookings as an additional safety measure.

#VivereCleanCare

CLEANCARE CAMPAIGN

Vivere Hotel is a TripAdvisor Hall-of-Fame awardee known for providing excellent service as recognized by our guests. Being the first 5-star hotel in the south, we continuously strive to innovate and elevate our service and our adaptability to the market's changing needs. Our latest campaign, **#VivereCleanCare**, champions health and safety protocols and procedures to safeguard guests' and our employees' health and well being at all times. This campaign aims to reassure our customers by giving peace of mind in knowing that we are deeply committed in ensuring a clean and safe stay at your second home, Vivere Hotel.

#VivereCleanCare

OUR COMPETITIVE ADVANTAGES

HOTEL ATRIUM

Fresh air continuously circulates at the Atrium and throughout the corridors of the whole building that helps mitigate the virus spread.

SUNLIGHT AND AIR FLOW

Sunlight at the hotel rooftop as natural vitamins and disinfectant. Nest Dining in the Sky is an AI fresco rooftop that encourages healthy airflow.

NO CARPET IN-ROOMS AND HALLWAYS

Carpets are susceptible to germs and can be also a breeding ground for bacteria.

PLANTS ALL OVER THE HOTEL

Plants help freshen up the air and eliminate harmful toxins.

INDIVIDUAL AIR CONDITIONING

Air conditions are individually installed per room to contain air circulation to a specific place so that viruses cannot pass thru.

PROXIMITY DOORS

Proximity doors are installed per floor to control number of person within a certain place.
